# HELLO & WELCOME

It's been a very challenging period in the hospitality industry over the last 2 years but finally, there seems to be light on the horizon.

As National Parks and Countries start opening and tourism slowly starts to trickle in, it's not only the best time to visit Africa at its most unspoiled and beautiful, it is also the most challenging.

Keeping up with restrictions that seem to change daily is a full-time task and for these reasons, we suggest the destinations in this guide during Covid.

Please contact us before you book your airfare, however, as regulations may change at a moment's notice.

The Waterfront is the most convenient location with the majority of the top hotels located here. The location offers easy access to major routes for day tours, shopping on your doorstep and blue flag beaches a stones throw away.

Franschhoek truly is a year round destination as most of the appeal is from the world-renowned wineries and restaurants. Winters in the cellars or sunny summer days outside both have merit, the choice is yours.

Yes of course. We have relationships with the Top 20 restaurants in Franschhoek and reservations are managed accordingly.

# FREQUENTLY ASKED QUESTIONS

## 1. When is the best time to visit The Kruger Park?

The best time to visit the Kruger Park is from July to September, which is the back-end of winter and the dry season, which means less dense bush and better game viewing.

## 2. What are The Big Five Animals?

The Big Five are the lion, elephant, rhino, buffalo and leopard. These animals were named the Big Five because they were the most difficult to track and hunt.

## 3. What other animals can I expect to see?

The Kruger Park is home to more than 140 large mammal species, more than any reserve or park in Africa. Expect to see hippo, giraffe, hyena, cheetah, plains game, crocodile and hundreds of bird species.

## 4. How do game drives work?

Game drives at the four and five star lodges we recommend depart twice daily, early morning and late afternoon. These are typically in open top vehicles with a private guide(s).

## 5. What clothes should I pack for safari?

Earth tones work best in the bush. Think outdoor clothing from REI or similar and you'll blend perfectly with the guides, staff and surroundings.

# FREQUENTLY ASKED QUESTIONS

## 1. When is the best time to visit Mauritius?

Mauritius enjoys a pleasant climate year-round. If you want the hottest days of Summer then you want to go from November to March. If you want sunny skies without the high heat and humidity of Summer, think April/May and September/October.

The cooler months from June to September enjoy lower rates and fewer tourists.

(April is my favourite)

## 2. How long should we stay for?

The ideal stay in Mauritius is 10 days but if you want to include it as an add-on to a wildlife safari, then 4-5 nights is perfect. Let us know what combination of activities you'll want to do, and we'll recommend your best options..

## 3. What wildlife engagement is available?

Swimming with the dolphins in Tamarin Bay is a deeply special experience. If you're lucky you may find yourself in a large pod of 400+ dolphins.

Other activities including snorkelling the reefs, diving and a trip the wildlife sanctuary on the island.
